The Company may require a minimum cash deposit or other guaranty to secure payment of bills except for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.
6. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

<sup>1</sup> Water districts should substitute KRS 74.050 and water associations should substitute KRS 273.392 since these statutes govern the rate of interest to be paid by water districts and associations.

Each member will be required to dig or have dug a ditch, to purchase and install, and to maintain such portion of the service line or lines from the property line of the member to his own dwelling; or other place of use on his premises at his own expense, provided that the Company may, if the board of directors so elect, purchase the pipe for and install such portion of such service line or lines, the cost of which will, however, be paid by the individual members.

The Company shall not be responsible for any damage done or by resulting from any defects in piping, fixtures, or appliances on the member's premises. The Company shall not be responsible for negligence of the third persons, or forces beyond the control of the Company resulting in any interruption of service.
- D. Under normal conditions, the members will be notified of any anticipated interruptions of service.

## VI. Member's Responsibility.

- A. Piping on the premises of the member must be so installed that the connections are conveniently located with respect to Company lines and mains.
- B. If the Company is called upon to provide additional meters, each place of metering will be considered as a separate and individual account.

4. Extensions made under this rule shall be and remain the property of the Company.

The Customer paying for an extension shall not be entitled to any refund for the attaching of Customers to any further extension or branch mains so installed.

1. When an extension of the Company's water mains is requested to be extended into a subdivision, the owner of that subdivision shall submit six (6) copies of the plat as filed in the county clerk's office to the Company with a written request that water service is requested to the property. The proposed extension shall be handled in the following manner:

The subdivision owner shall submit the plats as required above, along with adequate monies to pay for administrative costs, the preliminary engineering work, and a preliminary cost estimate for the construction of the water mains and associated facilities, if any, to include on-site facilities, off-site facilities, if any, engineering costs, legal costs, and administrative costs. When the estimate is completed and presented to the prospective developer, he or she may then decide to proceed or not proceed with the construction.
